Jeff,

It would be the estimated average.

Sincerely,

John DeBarbieri

John,

Do you have the flow data for the DMR from the 2/8 sample?

Ken / Jeff,

Attached are the complete results for the:

- 4-hr manual flow composite samples collected on 2/8/16 for metals, and
- 24-hr manual flow composite samples collected on 2/8 and 2/9/16 for acute toxicity.

Acute toxicity results are good for both the UV and non-UV treated samples. I attached the acute toxicity lab report.

Sincerely,

John D. DeBarbieri, P.E.

Ken / Jeff,

Regarding the below tabulated results for the Pond D Toe Drainage; we added the results of the Pond D Toe Drainage sample (4-hr manual flow composite) also collected on 2/8/16. Please refer to the attached.

Sincerely,

John D. DeBarbieri, P.E.
